

JUNE 2020

A Word from Bobby

The grass withers and the flowers fall, but the word of our God endures forever." Isaiah 40:8

Our Vision

The vision for this ministry is to equip individuals & local churches to become more actively involved in Christian mission opportunities and service.

To our Friends and Partners

A big **thank you** to our partners in this ministry! God has used you to serve Him and those that have been overlooked or forgotten, the least.

We would love to come and share our ministry with your church, Sunday School, circle, civic group, school or community event.

Please continue to pray for this ministry as we reach out to the least and forgotten in our world!

South GA Conference advance special number

Our designated number is
#7672

In scripture people are often compared to water, grass and trees because these things are temporary and they soon wither away. However, God's word is immortal and everlasting. As we know, public opinions often change with the wind and it is usually unreliable, but the Word of God is true, persistent and reliable.

The Coronavirus is helping us to understand our temporal status in this world. Rev. Jimbo Dominey and I were coming home from a mission experience in Ghana, Africa when we heard that Covid-19 was affecting Northern Italy and the Amsterdam Airport. We had an 8-hour layover so we watched thousands of people passing by us wondering if we would contract it. With a grateful heart we did not contract it and we made it home safely.

As we returned home, we began receiving calls from partners around the globe. Our friends in Kenya have been hit with a Triple Threat; locusts, deadly flooding and Covid19. These locusts are creating food security issues. Billions of locusts are devastating farms, farmers and their agricultural pastures. Similar experiences are happening in Yemen, Ethiopia, Uganda and East Africa. With farms destroyed, the stockyards and the open-air markets are limited with vegetables, fruits and animals or the prices have doubled or even tripled making it difficult to sufficiently purchase needed items.

With all of these different global struggles around the world, God's Word and His work is still going forth. Paul and Marty Law were quarantined for 42 days at their home in Lodja, Congo, but they sent a report of a second water well being completed. Dr. Michael Lolwerikoi from Samburu West, Kenya just assisted 12 pastors in Nairobi who were needing food and other supplies. Dipa and Naomi of Samburu East, Kenya have been busy securing a container of food for the marginalized and indigenous people in their area. After the container is emptied, it will be placed at the Josena Clinic for more medical space. Rev. Edward Enim of Winneba, Ghana is supporting a school, hospital and many marginalized pastors. Our Costa Rican partner, Dimas Alvarado, is preaching the gospel in Central America. Our friends, Jason and Karen Palmer, have an amazing ministry to hemophiliacs in Honduras. Rev. Mike and Cindy Ricker recently returned from India preaching a crusade with thousands of people hearing the Gospel of Jesus Christ.

God's church may look a little bit different since the Coronavirus, but His Word, works and deeds are happening around the world. Even in our lives, Nancy and I are reminded that our days are limited and numbered, but God's eternal truths are everlasting!

ANOTHER WELL FOR LODJA, CONGO

Two pipes with spigots to serve twice as many people!

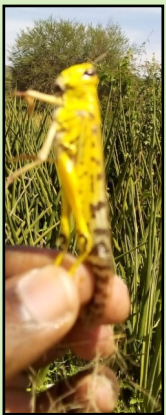

Dozens of women line up for pure healthy water being pumped from 100 feet below their village by solar panels and a solar pump!!

Boxes of Bibles being loaded on a riverboat in Kinshasa that should depart this week! 450 Bibles for students in Lodja!

Our goal of making 4200 reusable menstrual pads for young girls in the African schools is getting closer! Thank you to all who have worked so hard to make this happen.

Locusts threat is a great concern. Green leaves from trees which goats and camels depend on have been invaded by locusts. The grass which cattle, sheep and donkeys depend upon have been invaded by locusts. The nomadic pastoral people depend upon livestock for their livelihood. The increasing threat

of locusts is creating great challenges for the days and months ahead. Please keep the Samburu community in your prayers.

Operation Clean Water in process from Coast for Christ and Unto the Least of His.

The church buildings may be suspended for a season but the church is alive and well. These beautiful children just received new dresses in Central America. Thank you God for the harvest and the laborers who are making a difference in the world!
