

SEPTEMBER 2020

A Word from Bobby

Our world has changed with the Covid-19 pandemic and our leaders are offering different solutions daily or monthly. In February, don't wear a mask, but in June do wear a mask. Again, in February, do not go to your doctor unless you have shortness of breath, but in June get tested before you have the symptoms. In February stay at home, but in July go to school and work even though the numbers are increasing. Finally, the discussion on hydroxychloroquine, it works but it doesn't work. One doctor says that it heals and another doctor says not so. When we watch the television media or read the news articles about the pandemic, we stay in a state of anxiousness and confusion, the Bible offers us a way to have peace.

Psalms 37:3-4 states,

*Trust in the Lord and do good;
dwell in the land and enjoy safe pasture.
Take delight in the Lord,
and he will give you the desires of your heart.*

Knowing that our Creator God holds our past, present and future has helped me to have peace in the midst of these confusing times. Also, doing good for others has helped change my focus on someone other than myself and it has been mentally healthy. We are working on purchasing a container that will transport important medical supplies to a needy people. We will also be converting it into a medical facility for people in need of medical attention. Another project is we are looking to place 4 more water wells in the Democratic Republic of the Congo with Paul and Marty Law. And still another project is to create sewing centers in Kenya for the making of cloth masks and reusable menstrual pads for young women.

As we help others and we delight ourselves in the Lord, God will give us peace of mind and the desires of our heart. With God and the Bible, we have our best friend and counsel for these conflicting days.

Our Vision

The vision for this ministry is to equip individuals & local churches to become more actively involved in Christian mission opportunities and service.

To our Friends and Partners

A big **thank you** to our partners in this ministry! God has used you to serve Him and those that have been overlooked or forgotten, the least.

We would love to come and share our ministry with your church, Sunday School, circle, civic group, school or community event.

Please continue to pray for this ministry as we reach out to the least and forgotten in our world!

South GA Conference advance special number

Our designated number is
#7672

For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink,
I was a stranger and you invited me in, I needed clothes and you clothed me, I was sick and you looked after me,
I was in prison and you came to visit me.
Matthew 25:36-37

A few ongoing projects of Unto the Least of His:

Reusable sanitation napkins for young women—We have had a school in Ghana, Africa request these products because the high cost in the impoverished area. Some young school girls do not have enough money to purchase these products so they will miss school and get behind in their school work and eventually drop out. We have several groups that have sewn approximately 5000 pads!

We are currently developing sewing centers for different countries which we will call the Agape Stitchers Ministry in honor of Grace Wicker who has inspired so many of us. The centers will be work places for teaching sewing and the making of garments such as masks, baby blankets, school uniforms, bags, etc. Also, we hope that the centers will earn money for the workers so that they may have a better life.

The greenhouse projects with hydroponic developments are for food and poverty issues. These greenhouses will help supply food and prevent shortages for indigenous communities. Also, they will provide protection against locust invasions. We are really excited about the potential for food and resources in this project.

We are always developing new water projects. In Ghana, we were processing and recovering water that was found in ditches and grey water containers. Grey water developments are popular in dry areas. In the Democratic Republic of the Congo, we are placing solar powered water well systems. It is a miracle of God to pull water from the ground using the power of the sun. Paul Law from the Congo and Dr. Michael Lolwerikoi from Kenya are giving fantastic leadership in these new areas of Solar Powered Water Well systems.

We are exploring more possibilities for medical clinics. We have placed the Emily and Josena Medical Clinics in East Africa. We are now learning how to convert emptied cargo containers into medical dispensaries after the cargo has been delivered. Dr. Gabriella Nanci, from the Yonkofa Project has given tremendous insights and leadership in this new development for clinics.
